ONE-PIECE TOILET

RIMLESS 4.0

NEW GENERATION RIMLESS TOILET BOWL

1. Draining hole with large diameter, less probability to be stuck, avoid water stain and prevent bacterial growth.
2. Easy to clean without any residue, improve the clean efficiency.
3. Powerful flushing, better performance and water saving function.
4. Minimalistic design, more space saving and fashionable look.
5. The products with patent can bring you excellent using experience.
6. The way of your life will be changed by our innovational technology.
7. More choices for you.

latest RIMLESS flushing technology is a perfect combination of geometry, hydrodynamics and design. It ensures the effective and sanitary flushing. The edge of the w.c. pan is unclosed, and the flushing water is arc shaped on the horizontal plane around the w.c. pan then goes into the sewage draining exit vertically without splashing.
